

## School of Badminton – Player Development Coach

---

The School of Badminton based at the Zhu Badminton Centre in Wigram is a non-profit organisation that has been operating since September 2018 when the new facility was opened.

The School of Badminton's aim is to help grow badminton in Canterbury and provide players with a quality coaching 'product'.

As the School now has over 100 children at different ages and levels, we are looking at hiring an experienced Badminton Coach to join the team and help develop the members, from beginners through to the School's Academy section and the integration with senior badminton.

### Main Terms of Agreement

---
